Madison, WI  
COMM # 53713-2741-04  
BRRTS # 03-13-002857

Note:

Information from the case file was not sent to the copy shop. The case file is available for review in the Madison Office.

**1) What is the average depth of ground water?**

Response: Depth to groundwater is generally 2 to 5 feet.

**2) Do any barrels of investigative waste remain on-site from previous consulting activities?**

Response: According to the previous consultant two barrels of soil cuttings are expected to be at the site. Include a separate tabulation of cost for disposal on page 3 of the bid response.
